**Address:**

**Telephone (including Country and City code):**

**Fax (including Country and City code):**

**Email address:**

**Topics:** Please indicate the topics number corresponding with your paper

1. Lightning discharge
2. Lightning occurrence characteristics
3. Lightning electromagnetic impulse (LEMP) and lightning-Induced effects
4. Lightning attachment
5. Lightning downconductors and earthing
6. Lightning protection of power systems
7. Lightning protection of electronic systems
8. Lightning deleterious effects
9. Practical and specific lightning protection problems
10. Lightning protection and lightning testing standards

**Keywords:** The author shall provide up to 10 keywords (in alphabetical order) to help identify the major topics of the paper.

**ABSTRACT**

Authors are invited to submit abstracts of papers (together with the *Preliminary Registration Form*) not later than 1<sup>st</sup> September 2005. The abstracts (presenting the aim, content and results) ought to be two pages long (typically 300 words and no more than 500 words) including figures. Authors ought to transform the electronic files of the abstracts into .pdf files, and submit them to the Conference Office via ICLP2006 web site (URL: <http://www.iclp2006.net>). Authors are kindly requested to propose original and not previously published papers. Only papers of a high technical/scientific level will be accepted, excluding commercial papers promoting or advertising specific products or systems. Following submission, the abstracts will be screened by the Scientific Committee. Authors will be informed of the acceptance of their abstracts not later than 15<sup>th</sup> November 2005. Full papers (not exceeding six pages) ought to be submitted before 1<sup>st</sup> March 2006 for review. Notification of final acceptance will be given before 1<sup>st</sup> June 2006.
